

Citrix Product Definitions

Access Essentials

- Access Essentials is now [Citrix XenApp Fundamentals](#)

Access Gateway

- [Citrix Access Gateway](#) is a secure application access solution that provides SSL/VPN solutions.

Access Manager

- [MetaFrame Secure Access Manager](#)

Access Suite

- Access Suite has been replaced by [Citrix Delivery Center](#)

AG

- [Access Gateway](#)

AGA

- [Access Gateway Advanced](#)

AGE

- [Access Gateway Enterprise](#)

AGEE

- [Access Gateway Enterprise Edition](#)

AGSE

- [Access Gateway Standard Edition](#)

Application Delivery

- [NetScaler Application Delivery](#)

Application Firewall

- [NetScaler Application Firewall](#)

Application Gateway

- Citrix Application Gateway is used by organizations to deliver applications, packaged and/or transformed, to the screens and speakers of IP phones and wireless devices.

Ardence

- Ardence is now [Citrix Provisioning Services](#)

Ardence Corporate Edition

- Ardence Corporate Edition is now [Citrix Provisioning Services](#)

Ardence Device Edition

- Ardence Device Edition is now [Citrix Provisioning Services](#)

Ardence Professional Edition

- Ardence Professional Edition is now [Citrix Provisioning Services](#)

Ardence Secure Edition

- Ardence Secure Edition is now [Citrix Provisioning Services](#)

BR

- [Branch Repeater](#)

Branch Repeater

- [Citrix Branch Repeater](#) is a branch optimization solution (WAN Accelerator) that accelerates data and application delivery to branch office . Formerly [WanScaler](#).

C3

- [Citrix Cloud Center](#)

CAE

- Citrix Access Essentials is now [Citrix XenApp Fundamentals](#)

CAG

- [Citrix Access Gateway](#)

CAS

- Citrix Access Suite is now [Citrix Delivery Center](#)

CBR

- [Citrix Branch Repeater](#)

CCC

- [Citrix Cloud Center](#)

CCG

- Citrix Communication Gateway is now [Citrix EasyCall](#)

CDC

- [Citrix Delivery Center](#)

CES

- [Citrix Edge Sight](#)
-

Citrix acceleration plug-in

- Citrix acceleration plug-in is the old Repeater plug-in and WANScaler client

Citrix communications plug-in

- Citrix communications plug-in is the old EasyCall plug-in

Citrix HDX broadcast plug-in

- Citrix HDX broadcast plug-in is the old HDX plug-in, older ICA engine

Citrix offline app plug-in

- Citrix offline app plug-in is the old XA plug-in for streamed apps

Citrix offline plug-in

- Citrix offline plug-in is the old XA plug-in for streamed apps

Citrix online app plug-in

- Citrix online app plug-in is the old XA plug-in for hosted apps; initially supports XD

Citrix online plug-in

- Citrix online plug-in is the old XA plug-in for hosted apps; supports XD

Citrix Receiver

- **Citrix Receiver** is a single auto-updating client that provides users with fast, secure, and easy access to all of the applications they need to work from anywhere.

Citrix secure access plug-in

- Citrix secure access plug-in is the old AG plug-in

Cloud Center

- **Citrix Cloud Center** (C3) is an integrated portfolio of Citrix delivery infrastructure products packaged and marketed to the cloud service provider market.

CMU

- [Citrix MultiUser](#)

CNS

- [Citrix NetScaler](#)

Command Center

- [Citrix Command Center](#) is a management and monitoring solution for the complete line of Citrix application networking products including Citrix NetScaler, Citrix Application Firewall, Citrix Access Gateway, and Citrix Branch Repeater

Communication Gateway

- Communication Gateway is now [Citrix EasyCall](#)

Conferencing Manager

- Citrix Conferencing Manager allows you to hold real-time virtual conferences.

CPM

- [Citrix Password Manager](#)

CPS

- [Citrix Presentation Server](#)

CPSU

- Citrix Presentation Server for Unix is now [Citrix XenApp](#) for Unix

CSG

- [Citrix Secure Gateway](#)

CUIS

- [Citrix Unix Integration Services](#)

CWS

- [Citrix Workflow Studio](#)

CXA

- [Citrix XenApp](#)

CXC

- [Citrix XenClient](#)

CXD

- [Citrix XenDesktop](#)

CXS

- [Citrix XenServer](#)

Delivery Center

- [Citrix Delivery Center](#) is a dynamic virtualization system that transforms applications and desktops into on-demand services that enable users to work securely and productively from anywhere.

Desktop Server

- Desktop Server is now [Citrix XenDesktop](#)

EasyCall

- [Citrix EasyCall](#) is an award winning technology that slashes corporate telephony spend while provides the simplest and most intuitive way of enabling communication on any applications.

EdgeSight

- [Citrix EdgeSight](#) provides the real-time visibility necessary to test, deliver and monitor the performance of Web, desktop and virtualized applications with the best user experience.
-

EdgeSight for Endpoints

- [Citrix EdgeSight for Endpoints](#) provides continuous and comprehensive visibility into application performance at the desktop, allowing IT managers to proactively identify issues before business is disrupted and rapidly determine the root cause

EdgeSight for Load Testing

- [Citrix EdgeSight for load testing](#) provides an efficient and cost effective method of server sizing and application load testing for Citrix XenApp environments.

EdgeSight for NetScaler

- [Citrix EdgeSight for NetScaler](#) builds application visibility into the application delivery infrastructure, providing end-user performance monitoring for Web applications.

EdgeSight for Presentation Server

- EdgeSight for Presentation Server is now [EdgeSight for XenApp](#)

EdgeSight for XenApp

- [Citrix EdgeSight for XenApp](#) provides real-time session level application performance information for Citrix XenApp environments.

ESE

- [EdgeSight for Endpoints](#)

ESLT

- [EdgeSight for Load Testing](#)

ESN

- [EdgeSight for NetScaler](#)

ESPS

- [EdgeSight for Presentation Server](#)

Essentials

- [Essentials for XenServer](#)

- [Essentials for Microsoft Hyper-V](#)

Essentials for Hyper-V

- [Citrix Essentials for Hyper-V](#), offering advanced virtualization management capabilities for Microsoft Windows Server® 2008 Hyper-V

Essentials for XenServer

- [Citrix Essentials for XenServer](#) extends advanced server virtualization management capabilities to Citrix XenServer

ESX

- [EdgeSight for XenApp](#)

Fundamentals

- [XenApp Fundamentals](#)

GoTo Assist

- [Citrix GoTo Assist](#) is easy-to-use remote support technology for businesses of all sizes.

GoTo Meeting

- [Citrix GoTo Meeting](#) is the easiest and most cost-effective way to conduct an online meeting

GoTo MyPC

- [Citrix GoTo MyPC](#) is the fast, easy and secure remote access solution.

GoTo Webinar

- [Citrix GoTo Webinar](#) enables individuals and organizations to easily present, train and demonstrate to large audiences online, significantly expanding the reach of their communication throughout the world.

GoView

- [Citrix GoView](#) can capture your computer screen and audio, then instantly share your recording online.

GTA

- [GoToAssist](#)

GTM

- [GoToMeeting](#)

GT MPC

- [GoToMyPC](#)

GTW

- [GoToWebinar](#)

HDC

- [HiDef Conferencing](#)

HiDef Conferencing

- [Citrix HiDef Conferencing](#) Audio Services lets you easily start and manage audio conferences with up to 500 participants, with better quality than traditional telcom providers

MetaFrame

- MetaFrame is now [Citrix XenApp](#)

MetaFrame 1.8

- MetaFrame 1.8 is now [Citrix XenApp](#)

MetaFrame for Unix

- MetaFrame for Unix is now [Citrix XenApp](#) for Unix

MetaFrame Presentation Server

- MetaFrame Presentation Server is now [Citrix XenApp](#)

MetaFrame Secure Access Manager

- MetaFrame Secure Access Manager has been replaced by [Citrix Access Gateway](#)

MetaFrame XP

- MetaFrame XP is now [Citrix XenApp](#)

MFU

- MetaFrame for Unix is now [Citrix XenApp for Unix](#)

MPS

- MetaFrame Presentation Server is now [Citrix XenApp](#)

MPSU

- MetaFrame Presentation Server for Unix is now [Citrix XenApp for Unix](#)

MPX

- [NetScaler MPX](#)

MSAM

- [MetaFrame Secure Access Manager](#)

MultiUser

- MultiUser became WinView, WinFrame, MetaFrame, MetaFrame 1.8, MetaFrame XP, MetaFrame Presentation Server, Presentation Server, is now [Citrix XenApp](#)

NAD

- [NetScaler Application Delivery](#)

NAF

- [NetScaler Application Firewall](#)

NetScaler

- [Citrix NetScaler](#) is comprehensive application acceleration, traffic management, and web security

NetScaler Application Delivery

- [Citrix NetScaler Application Delivery](#) is an integrated Web application delivery controller appliance that functions as an application accelerator through caching and HTTP compression.

NetScaler Application Firewall

- [NetScaler Application Firewall](#) protects Web applications from the growing number of application-layer attacks and prevents the loss of valuable corporate and customer data. The Application Firewall also aids in compliance with information security regulations, such as PCI-DSS.

NetScaler MPX

- [Citrix NetScaler MPX](#) Solutions Secure and Accelerate the Most Complex Web Applications and Support Next-Generation Dynamic Datacenters

NetScaler VPX

- [Citrix NetScaler VPX](#) provides the complete NetScaler web application load balancing, acceleration, security and offload feature-set in a simple, easy to install virtual appliance.

NS

- [Netscaler](#)

NTrigue

- NTrigue was an [OEM](#) version of [WinFrame](#) for Insignia Inc. that used the [X11](#) protocol instead of the [ICA](#) protocol.

Password Manager

- [Citrix Password Manager](#) increases application security for all applications, whether delivered by Citrix XenApp or deployed to the desktop.

pICAso

- pICAso was the code name for what became [Citrix MetaFrame](#)

Presentation Server

- Presentation Server is now [Citrix XenApp](#)

Presentation Server 3.0

- Presentation Server 3.0 is now [Citrix XenApp](#)

Presentation Server 4.0

- Presentation Server 4.0 is now [Citrix XenApp](#)

Presentation Server 4.5

- Presentation Server 4.5 is now [Citrix XenApp](#)

Profile Management

- [Citrix Profile Management](#) ensures that the user's personal settings are applied to the user's virtual desktop and applications, regardless of the location and end point device.

Provisioning Server

- Provisioning Server is now [Citrix Provisioning Services](#)

Provisioning Server for Datacenters

- Provisioning Server for Datacenters is now [Citrix Provisioning Services](#)

Provisioning Server for Desktops

- Provisioning Server for Desktops is now [Citrix Provisioning Services](#)

Provisioning Services

- [Citrix Provisioning Services](#) virtualizes the workloads of server and desktop operating system, applications and configurations by streaming the workload on-demand to physical or virtual servers from the network.

- [Presentation Server](#)

PSU

- Presentation Server for Unix is now [Citrix XenApp](#) for Unix

PVS

- [Provisioning Services](#)

Receiver

- [Citrix Receiver](#)

Receiver for iPhone

- [Citrix Receiver for iPhone](#) delivers applications as a service to users on an iPhone.

Receiver for Windows

- [Citrix Receiver for Windows](#) is the first universal client for IT service delivery.

Reflectent

- Reflectent is now [Citrix Edge Sight](#)

Reflectent EdgeSight

- Reflectent Edge Sight is now [Citrix Edge Sight](#)

Repeater

- [Branch Repeater](#)

Secure Access Manager

- [MetaFrame Secure Access Manager](#)
-

Secure Gateway

- [Citrix Secure Gateway](#) encrypts and authenticates all user connections using SSL/TLS to provide a secure Internet gateway for components and client devices

StorageLink

- [Citrix StorageLink](#) technology lets your virtual server infrastructures fully leverage all the resources and functionality of existing storage systems.

UIS

- [Unix Integration Services](#)

Unix Integration Services

- Citrix UNIX Integration Services is now [Citrix XenApp](#) for Unix

Voice Office

- Citrix Voice Office application suite enables enterprises to further leverage their IP telephony investments and increase workforce productivity by delivering converged applications to the screens and speakers of IP phones.

VPX

- [NetScaler VPX](#)

WanScaler

- WanScaler is now [Citrix Branch Repeater](#)

WFS

- [Workflow Studio](#)

WinCenter

- WinCenter was an [OEM](#) version of [WinFrame](#) for Network Computing Devices Inc. (NCD), that used the [X11](#) protocol instead of the [ICA](#) protocol.

WinDD

Windows Distributed Desktop

- Windows Distributed Desktop ([WinDD](#)) was an [OEM](#) version of [WinFrame e](#) for Techtronix Inc.

WinFrame

- WinFrame is now [Citrix XenApp](#)

WinFrame 1.0

- [WinFrame e](#)

WinFrame 2.0

WinView

- WinView is now [Citrix XenApp](#)

Workflow Studio

- [Citrix Workflow Studio](#) is an infrastructure process automation platform that enables you to transform your datacenter into a dynamic delivery center.

WS

- [WanScaler](#)

XA

- [XenApp](#)

XAP

- [XenApp Plugin](#)

XC

- [XenCenter](#)

XD

- [XenDesktop](#)

XenApp

- [Citrix XenApp](#) is an application delivery system that manages applications in the datacenter and delivers them as an on-demand service to users anywhere using any device.
- Formerly Citrix Presentation Server (CPS), MetaFrame, WinFrame, WinView

XenApp Fundamentals

- [Citrix XenApp Fundamentals](#) provides simple and secure remote access for small to mid-size businesses.

XenCenter

- [Citrix XenCenter](#) is the Windows-native user interface for XenServer.

XenClient

- [Citrix XenClient](#) is a virtualization solution that will extend the benefits of hosted desktop virtualization with the introduction of a new client-side bare metal hypervisor that runs directly on a laptop or PC.

XenDesktop

- [Citrix XenDesktop](#) is the Citrix VDI desktop virtualization solution that delivers virtual desktops as a service to users anywhere.

XenServer

- [Citrix XenServer](#) is the only enterprise-class, cloud-proven server virtualization platform that delivers the critical features of live migration and centralized multi-server management at no cost.

XS

- [Citrix XenServer](#)
